

THE GAZETTE.

FRIDAY NOVEMBER 30

A NOBLE BENEFACTOR.

Once in a while a man of broad philanthropic mind will come to the surface and do an act that will challenge the admiration of the country. The people of America and England will never forget the princely benefactions of George Peabody, who gave six million dollars to foreign and charitable institutions. The people of California will always be proud of Leland Stanford, the millionaire senator, for the thirteen millions he gave to the university bearing the name of his deceased son. The richest monument in New York city is not in any park or cemetery, but on one of the principal streets of the city—the Cooper Institute. When Cooper was 18 years old, poor and friendless and without an education, he found that in all the city of New York there was not an evening school where poor boys or girls could go for instruction without an expense that they could not meet. He therefore resolved that he would back all his energies to one subject—to build an institute where boys and girls could study book keeping, mechanics, science, language and so on, without cost to them. That resolution was fully carried out, and in 1859 the Institute, costing more than a million dollars, was opened.

Mr. I. V. Williamson, of Philadelphia, has been very successful in business. He has a philanthropic spirit, and has decided to consecrate five million dollars to found a great mechanical school for boys. This vast sum will be given to start with, and more will be forthcoming when it is needed. This proposed enterprise in the judgment of life-long observation by Mr. Williamson, "who has become convinced that one of the growing social evils of the time is the decline of the apprentice system, which made it difficult for boys to learn trades, and has thrown many a promising youth upon the world without any means of livelihood. Many of them drift, and may almost be said to be tormented into idle and vicious ways. The result is that there is a growing up amongst us a dangerous class, none the less because it is composed as a rule of native Americans. They are not allowed to learn trades, and the places which properly belong to them are taken by imported workmen. A school which shall be steadily engaged in teaching mechanical trades to several hundreds of boys will be a powerful influence for good in the community which has the good fortune to secure it, and ought to have the effect of stimulating similar movements in other parts of the country."

The location of this mechanical school has not been decided upon, but there does not seem to be any doubt that it will be located in Philadelphia. The board of trustees has been selected. The institution will graduate proficient mechanics, and such trades as carpentering, blacksmithing, painting, and printing will be thoroughly taught, as also the branches taught in the public schools so that the graduate in mechanics will have the benefit of a liberal education.

An act of such splendid munificence as that of Mr. Williamson's, brings out a star of glory in the old man's life. He is now above four score years old, and is still on the bright side of eighty. He is a public benefactor, and for such the world has a feeling of profound reverence.

THE VOTE OF WISCONSIN.

The official returns of the election in this state have been received at Madison, and have been canvassed. The total vote of the state was 354,654, of which Harrison received 176,553, and Cleveland 155,282; Fish 14,277, Streator 8,552, Board 17,690, Morgan 155,425, Durand 14,865, Powell 9,105. The presidential vote compared with that of 1884 is as follows:

	1884	1888
Republican	161,125	176,553
Democrat	143,410	155,282
Prohibition	14,865	14,865
Other	4,854	8,552

Harrison's plurality is 21,271, against 14,776 in 1884 for Blaine. Board's plurality is 20,265, against 18,718 for Bask in 1886, and 19,269 in 1884. Governor Hoard has received the largest plurality ever received by a gubernatorial candidate in this state since 1873. The majority or plurality received by republican candidates for governor of Wisconsin since 1857 is as follows:

	1857	1860	1864	1868	1872	1876	1880	1884	1888
Handall	451								
Handall	7,400								
Harvey	8,321								
Levia	23,041								
Fairchild	10,022								
Fairchild	4,774								
Washington	8,238								
Lindigton	8,941								
Smith	12,402								
Rusk	10,022								
Rusk	18,718								
Rusk	18,718								
Hoard	20,265								

The proportion of vote to population in 1880, the census year, was 4.92 of population to each vote. Assuming that the same proportion obtained now, the population of the state is 1,745,000 or an increase of 431,000 in eight years.

Well, the Rev. Sam Small has been heard from again. Mr. Small has been a prohibitionist and has been preaching practical prohibition, but did not enter the third party movement. He spoke in New York the other day, and he exploded one of his cannon balls right in the camp of the third party. He told them that he didn't believe in national prohibition politics. The prohibitionists had held the balance of power in fifty-two congressional districts, and in several states, but by persisting in running independent tickets had left themselves without representation. That comes, he said, of putting party above principle, which was a mistake the liquor-dealers

ALL GAVE THANKS.

The Day Generally Observed Throughout the Land.

SOME NOTABLE CELEBRATIONS.

How the Victorious and Defeated Presidential Candidates Observed It—The Part Taken by Various Cities Remembered.

Thanksgiving Day was more generally observed throughout the country yesterday than ever before. The day was observed in a variety of ways, and the people of all denominations and of all ages participated in the observance of the day. In New York City services were held in all the churches, and the people of all denominations and of all ages participated in the observance of the day. In Boston and throughout New England, where the Thanksgiving holiday is more generally observed, the day was observed in a variety of ways, and the people of all denominations and of all ages participated in the observance of the day.

There are those who think that there will be three or four other republicans who will receive certificates because they are already entitled to them—especially the three in West Virginia. But even by throwing out everything that can possibly create a doubt, the republicans still hold a majority of three as given in the preceding table.

There is some amusement in Milwaukee over the following challenge made by the Evening Wisconsin:

If the Sentinel printed and sold its daily issues on the six days of the week, it would be a great success, and will show its record to that effect to the satisfaction of a committee to be chosen by the two papers, then the Wisconsin will pay over to the local public charities the sum of \$500.

It seems that the Evening Wisconsin will have to pay the \$500. The Sentinel did not do much bragging as to what it could prove, but went quietly to work to organize a committee composed of substantial business men, some of whom are opposed to the Sentinel politically, that examined the books of the paper, and found that the Sentinel did actually circulate more than 92,000 copies during election week. So the public charities of Milwaukee will be in pocket \$500 unless the Evening Wisconsin should lose its courage as it does in a campaign.

Gov. Cleveland observed Thanksgiving Day by attending union services in the Second Presbyterian Church. General Harrison dined at home with his family and had guests. Hon. R. C. Keweenaw, of St. Louis, the turkey which graced the table was presented to him by one of his old comrades, Captain Anderson, of the Seventeenth Indiana regiment.

FOUNDERED IN THE GALE.

An Unknown Ship Believed to Have Sunk with All on Board.

PHILADELPHIA, Nov. 30.—The French steamship Panama encountered the recent cyclone 100 miles off the Delaware capes. The seas were mountainous, and all efforts to keep the vessel's head on course fruitless, as the wind threw her around in the trough of the ocean. At times she was completely enveloped. The carpenter, L. Francois, was swept overboard and lost. At 3 o'clock the same night the signals of a vessel in distress were seen shooting up from a dark bulk which was nearly level with the water. Captain Chabot bled down on the deck, and the vessel was unable to get close enough to rescue the crew. He could distinctly see the men clinging to the afterlife waving lights and begging to be taken off. He believed the vessel to have been a French rigged ship. She was deeply laden and doubtless foundered with all on board. When he left them they were waving lights, but after a few moments all lights died out.

PROVINCETOWNS, Mass., Nov. 30.—The body of Captain Daniel Morrison, of Stoughton, N. S., was found in the wreck of his schooner, the M. K. Morrison, which was wrecked on the rocks of the Cape Cod. The vessel was heavily laden and doubtless foundered with all on board. When he left them they were waving lights, but after a few moments all lights died out.

BRIBED FEDERAL OFFICIALS.

Testimony of Lawyer Stone, of Ogdensburg, in the Gardner Opium Case.

ALBANY, N. Y., Nov. 30.—Despite the fact that it was Thanksgiving, the United States Court continued in session to complete the testimony of the Gardner opium case. John W. Stone, one of the defendants who turned State's evidence, said that Haines proposed to him last March, while they were both attending the United States Court at Ogdensburg, to bribe him in the smuggling case, that they should bribe the necessary custom-house officers at Ogdensburg and substitute a spurious article for the imported opium. Stone said that he had been bribed by Haines and detailed at length how the opium was taken from the custom-house at Ogdensburg and shipped to Chicago and sold in the city.
